

IBM MobileFirst

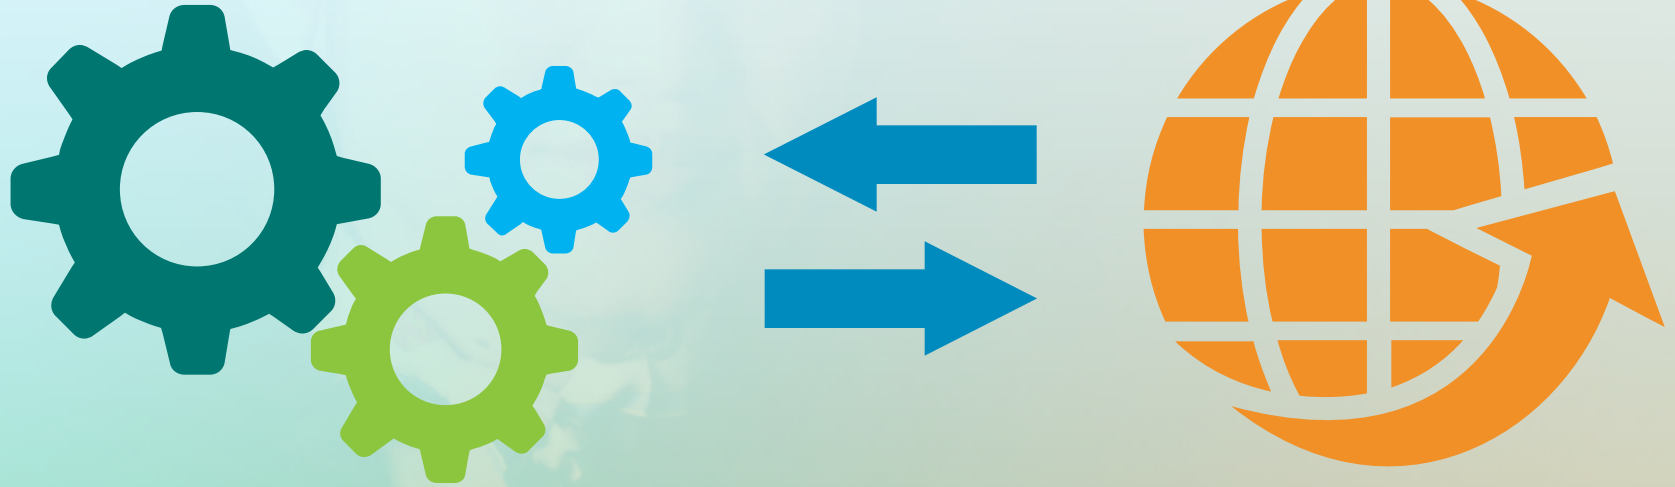

Build Better Native Apps

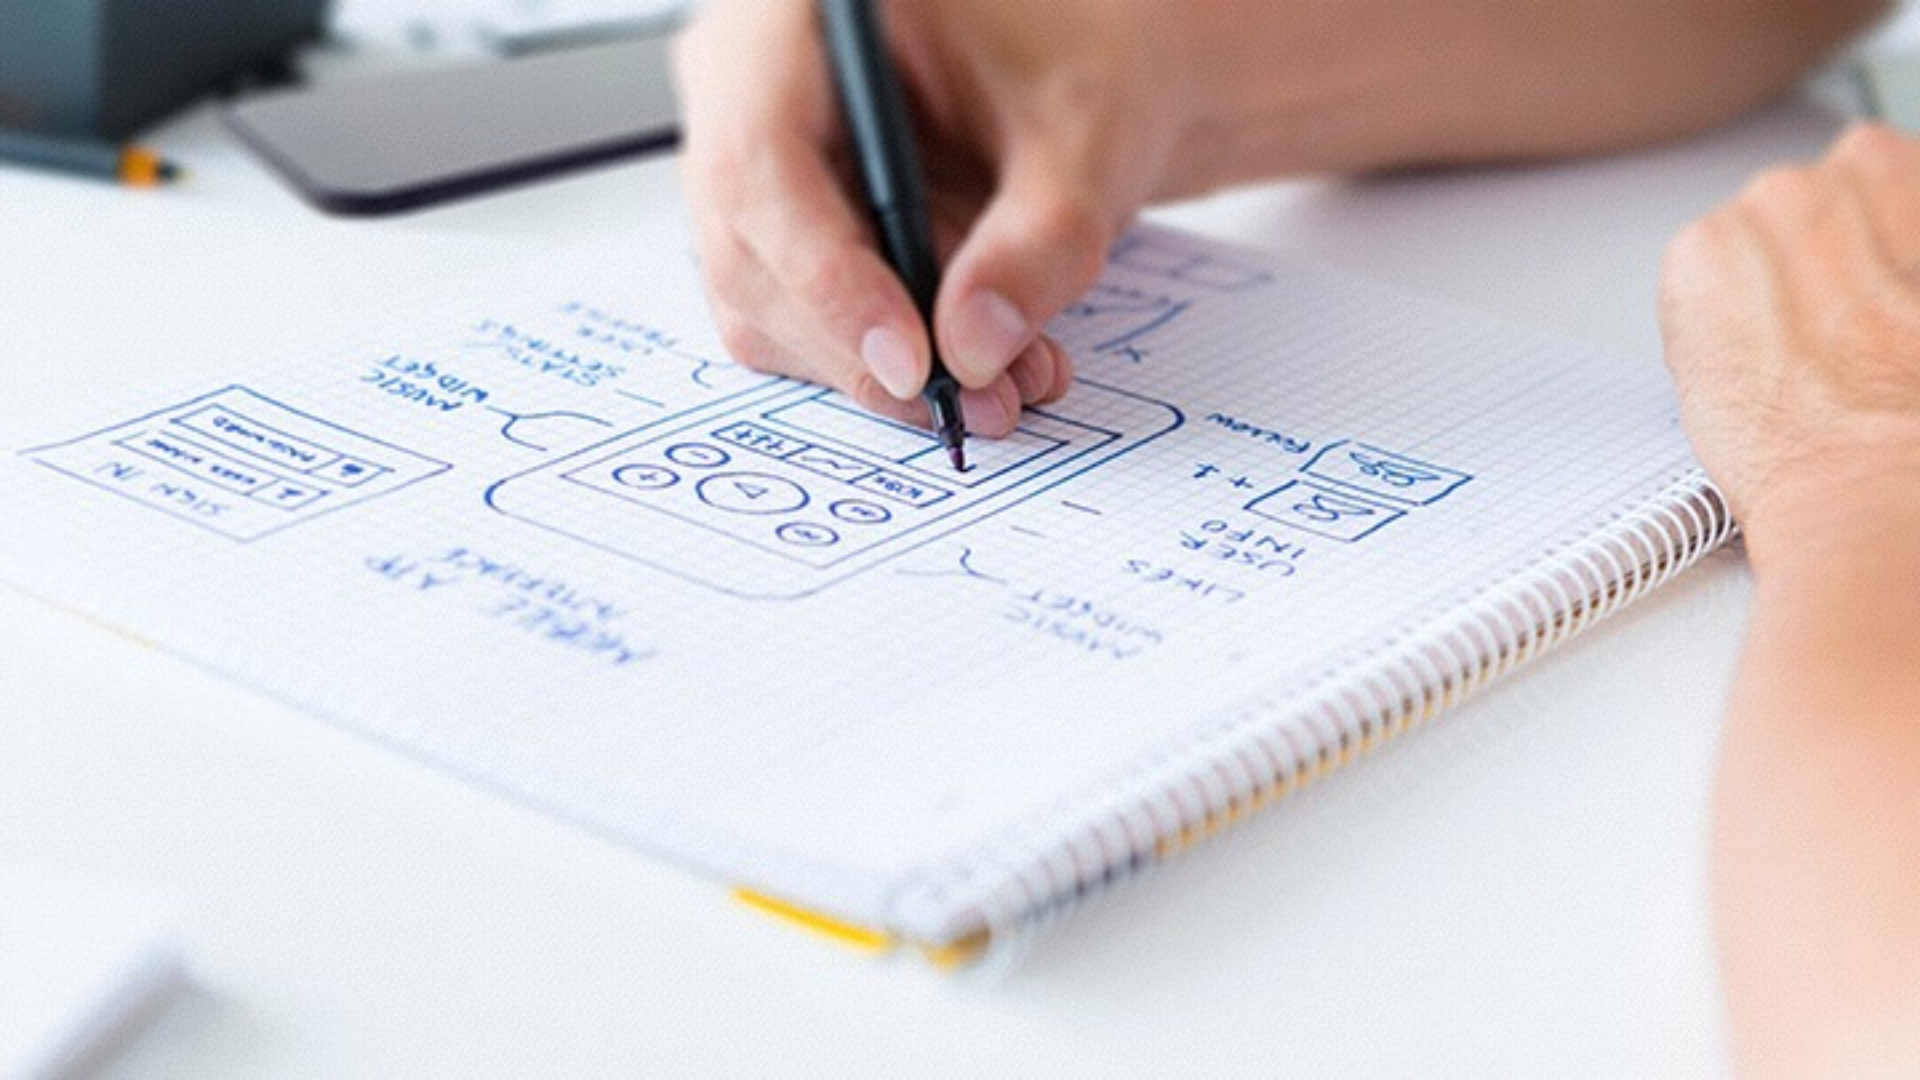

ANDREW TRICE

IBM MOBILEFIRST DEVELOPER ADVOCATE

@andytrice

IBM **MobileFirst**

You need to access
and store secure data
within your app?

You need to manage
which versions of your
app are “in the wild”?

You need to engage
with your users and
manage notifications?

You need to monitor your app performance over the entire lifecycle.

Let's see how to do it...
